

PROFESSIONAL SOLUTIONS TO KEEP YOUR BUSINESS OPERATIONAL

Zep Assure™ Program Clean and Disinfect Confidently

Everyone entering your facilities is concerned about Coronavirus disease (COVID-19). Correct cleaning and disinfection are critical to infection prevention. **Zep's Assure Program (CLEAN - DISINFECT - PROTECT)**, is Zep's commitment to keeping workplaces safer, cleaner and more productive. Our program follows CDC guidance and uses EPA-registered and FDA compliant products to reduce risk of spreading infection.

DEEP CLEAN

The program centers on a process of continuous protection measures for critical touch areas (CTAs) – or areas in frequent use by multiple users, such as light switches and door handles. It begins with deep cleaning porous and nonporous surfaces to remove built-up grime and soil.

Zep Assure Armor Cleaner

Rapidly removes built-up soils and grime in hard to clean but delicate areas. Extremely effective of removing general grit and grime that soils seating areas, floors, and walls. Excellent emulsifying and strong rapid wetting properties.
SKU# U61824 (4-1 gal/cs) RTU
SKU# U60935 (5 gal pail) Concentrate
SKU# U60960 (60 gal drum) Concentrate

DISINFECT

Disinfection using Zep products that have been approved by the EPA to kill the virus that causes COVID-19 as well as other widely circulated pathogens. At a minimum, disinfect frequently- touched surfaces daily and display signage to demonstrate your commitment to achieve biosecurity while helping to reduce risk of spreading infection.
