

## **E.V. ROBERTS WINS BOEING PERFORMANCE EXCELLENCE AWARD FOR THE THIRD STRAIGHT YEAR**

*Elite Honor Bestowed Upon the Top 2% of Global Suppliers*

**Carson, CA, June 19, 2017**, E.V. Roberts – a leading distributor, manufacturer and packager of advanced engineered materials for aerospace, composites, electronics, automotive, and other specialty industries – today announced its designation by The Boeing Company as a Boeing Performance Excellence Award recipient for the third year in a row.

The Boeing Performance Excellence Award is an annual program designed to acknowledge superior and reliable supplier performance in a 12-month cycle. E.V. Roberts was honored with the award in 2014, 2015, and again in 2016.

Ron Cloud, CEO of E.V. Roberts, commented on the win. “This achievement is a reflection of the mindful commitment and daily execution to deliver the highest quality products and impeccable support to Boeing and the rest of the aerospace community. Winning such an exclusive award for the third straight year is particularly satisfying, in that it confirms what we already know: industry focus, personalized care, and commitment to excellence pay off.”

###

E.V. Roberts is a full-service supplier of advanced engineered materials for aerospace, composites, electronics, automotive, and other specialty industries. We are fully AS- and ISO-certified and authorized to distribute 3M, Henkel, and Momentive adhesives and films, sealants, surface treatment technologies, resins, curing agents and more, and can easily source and supply other specialty materials upon request. Resin Formulators – the custom formulation division of the company, manufactures custom solutions to meet any need, while our dispensing and packaging business delivers technologies for precision and efficiency with every application. For nearly 80 years, E.V. Roberts has delivered superior engineered materials with impeccable support to thousands of customers from more than 65 countries around the globe.
